After working 41 years in the high-end exotic wood industry, Interwood has pretty much seen it all. We have seen remarkable trees in all colors, grains and figure types and on very rare occasions we find things which we never expected to exist.

In this case, we are proud to share with you a one of a kind freak of nature, BIRDSEYE ZEBRAWOOD. A combination of color, grain, and figure type make this log a distinctive, unique, and unparalleled Gem of the Forest.
