The Nile Crocodile is the largest reptile in Sub-Saharan Africa. Known to lie in wait for days before attacking its prey, it is the most dangerous apex predator in North Africa.

Like the Nile Crocodile, Birdseye Zebrawood is a gem in nature's landscape. Extremely rare and only sourced by the most knowledgeable buyers. Interwood is devoted to curating exactly these kinds of veneers.

Interwood Forest Products was established in 1987 as the US division of Fritz Kohl Veneer Mill in Karlstadt Germany. This week

we are being featuring in the unveiling of this years Wood Industry magazine at the International Wood Fair in Atlanta. We can't wait to share our story!
